Gentlemen:

A year ago the administration of Georgia Southern College granted permission for the establishment of social fraternities at the college. Tau Kappa Epsilon is the first group to establish a colony on the campus, and I understand they are requesting chapter status in the Tau Kappa Epsilon National Fraternity.

I have talked with a number of the men in this group. I feel that they are doing good work here now and I am sure they will continue to work hard for the chapter to be firmly established. I have high regard for them and I am glad to recommend that they be considered for chapter status.

Sincerely yours,

Jack S. Henderson
